

Easy Access To Our Call Manager/IPCC and Unity Servers – No VPN Required!

First, you authenticate to our server using your individual username and password.

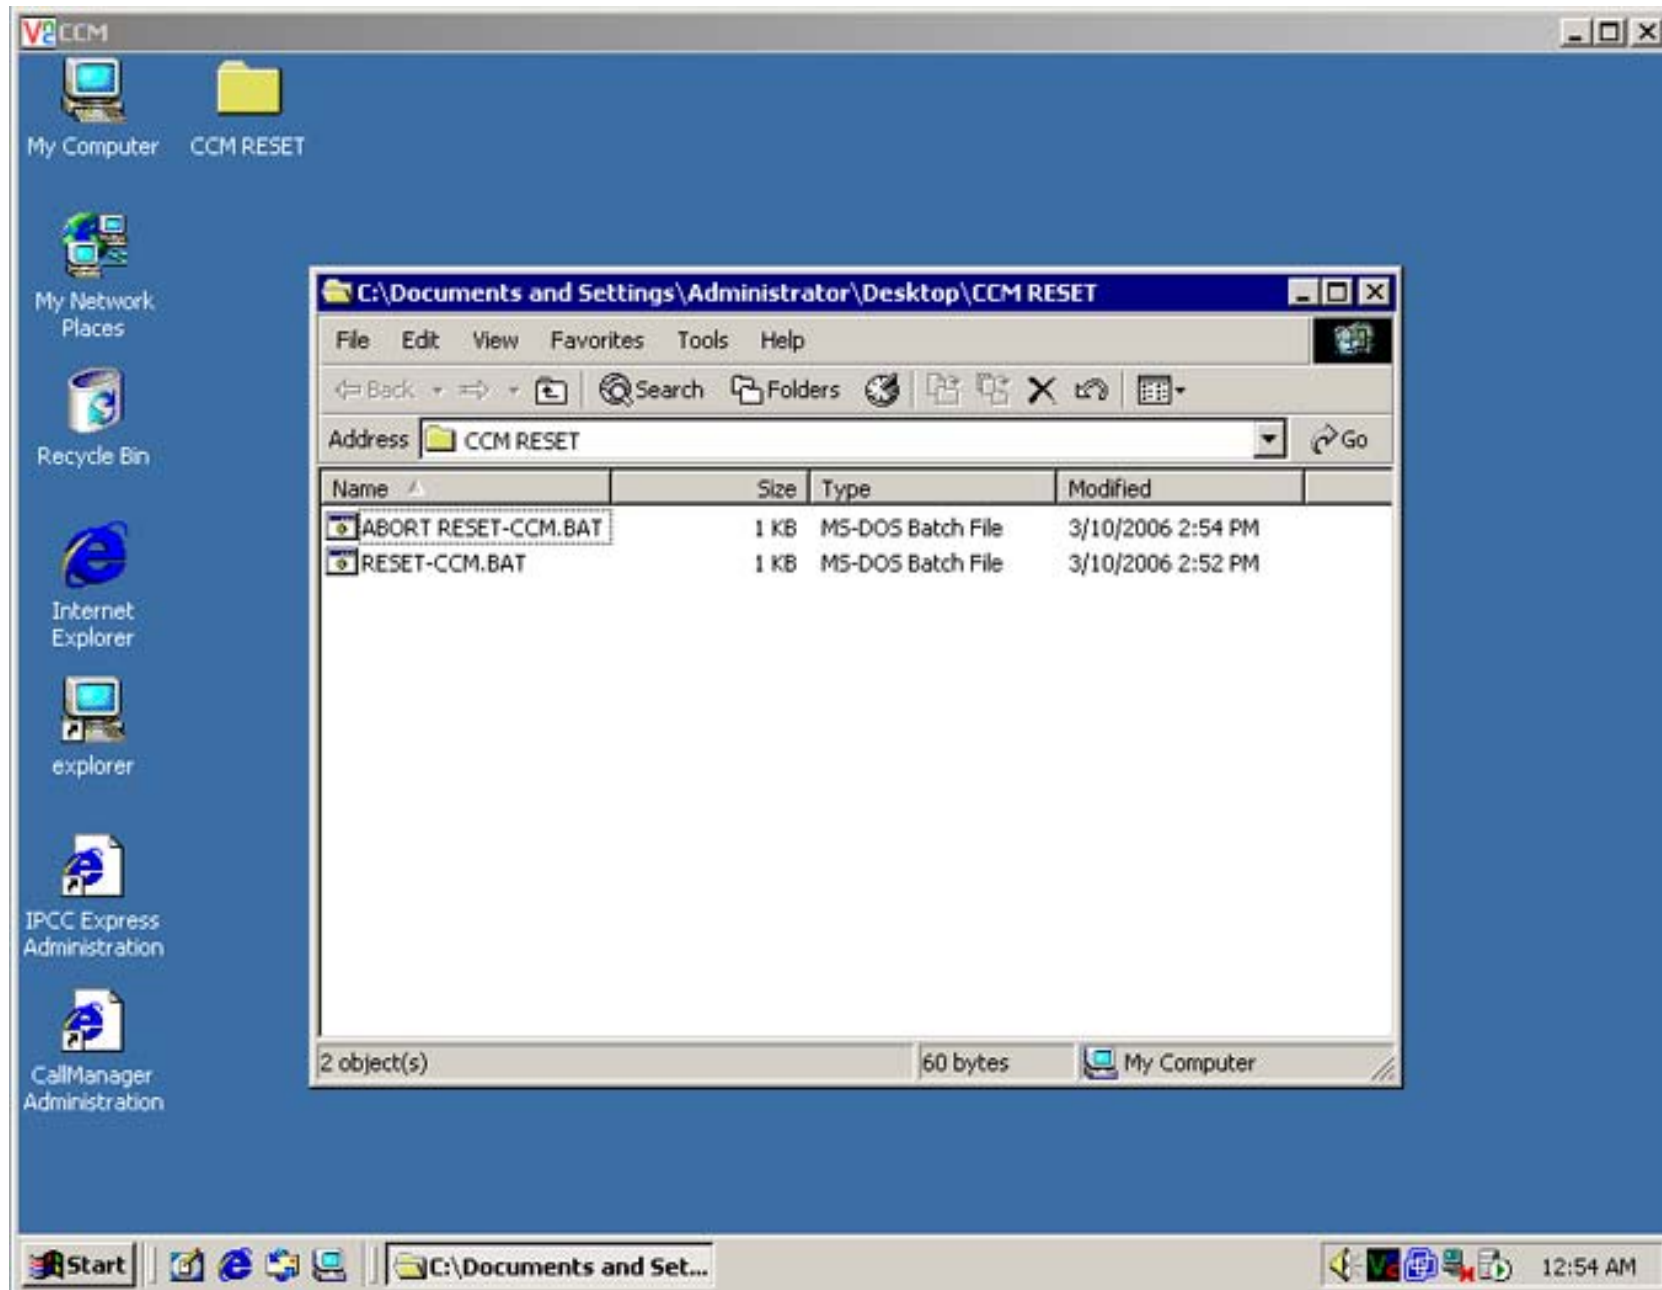

Second, you VNC to either our Call Manager/IPCC server or Unity server.

CLICK TO CLEAR (CTC) Server Feature

In addition, on both of our servers, you can reset the images back to their default blank configuration state with a click of a button!

On the Unity Server, we have an IP Softphone loaded for your testing pleasure!

YES! It's THAT easy! We also provide access to your servers via RDP if you desire. In addition, you can access the servers via HTTP directly (ie <http://cm1.ccbootcamp.com/ccadmin>)
