

CompTIA A+ 2009 Edition

Contents

CompTIA A+ Certification – Volume 1

Introduction

- Topic A: About the manual
- Topic B: Setting your expectations
- Topic C: Re-keying the course

Troubleshooting methodology

- Topic A: Troubleshooting models
- Topic B: Professionalism
- Unit summary: Troubleshooting methodology

Operating systems

- Topic A: Operating system fundamentals
- Topic B: Directory management
- Topic C: File management
- Topic D: File and folder permissions
- Unit summary: Operating systems

Electricity and power supplies

- Topic A: Electrical safety
- Topic B: Power supplies
- Topic C: Power supply troubleshooting
- Unit summary: Electricity and power supplies

CPUs and motherboards

- Topic A: Central processing units
- Topic B: Cooling techniques
- Topic C: Motherboards
- Topic D: Motherboard and CPU troubleshooting
- Unit summary: CPUs and motherboards

The Basic Input/ Output System

- Topic A: The BIOS and CMOS
- Topic B: The POST and boot processes
- Unit summary: The Basic Input/Output System

Memory systems

- Topic A: Memory
- Topic B: Memory packaging
- Topic C: Memory installation
- Topic D: Memory monitoring
- Topic E: Memory troubleshooting

CompTIA A+ 2009 Edition

Unit summary: Memory systems

Bus structures

Topic A: Buses

Topic B: The PCI bus

Topic C: Video buses

Unit summary: Bus structures

Expansion cards

Topic A: Video cards

Topic B: Sound cards

Topic C: Internal modems

Topic D: Expansion card troubleshooting

Unit summary: Expansion cards

Peripheral connection types

Topic A: Serial and parallel connections

Topic B: PS/2 connections

Topic C: USB connections

Topic D: FireWire connections

Topic E: Multimedia connections

Topic F: Port, cable, and connector troubleshooting

Unit summary: Peripheral connection types

Data storage devices

Topic A: Drive adapters

Topic B: Hard drives

Topic C: Optical drives

Topic D: Removable storage devices

Topic E: Drive maintenance

Topic F: Storage device troubleshooting

Unit summary: Data storage devices

Video output and image input devices

Topic A: Monitors

Topic B: Scanners and cameras

Unit summary: Video output and image input devices

Printers

Topic A: Printing technologies

Topic B: Printer installation

Topic C: Printer optimization and maintenance

Topic D: Printer troubleshooting

Unit summary: Printers

CompTIA A+ 2009 Edition

Connecting computers

- Topic A: Networking concepts
- Topic B: Wired network connections
- Topic C: Basic internetworking devices
- Unit summary: Connecting computers

CompTIA A+ Certification – Volume 2

Networking computers

- Topic A: Addressing
- Topic B: Client configuration
- Unit Summary: Networking computers

Network troubleshooting

- Topic A: Troubleshooting basics
- Topic B: Troubleshooting the network
- Unit summary: Network troubleshooting

Portable computers

- Topic A: Notebook computers
- Topic B: Configuration
- Topic C: Component replacement
- Topic D: Notebook issues
- Unit Summary: Portable computers

Windows management

- Topic A: System Management
- Topic B: Task Scheduler
- Topic C: Resource Management
- Unit Summary: Windows management

Windows monitoring

- Topic A: System monitoring
- Topic B: System performance
- Topic C: Backup and restore
- Unit Summary: Windows monitoring

Operating system troubleshooting

- Topic A: Windows startup
- Topic B: System troubleshooting
- Unit Summary: Operating system troubleshooting

Security

- Topic A: Operating system security
